ABOUT US

For over 10 years, we have grown alongside our customers, and every experience has helped us become better.

After years dedicated to sleep systems, bed bases, mattresses, lifting mechanisms, sofa extension systems and accessories supplied by our trusted Italian partners, we created the Arduino Home collection.

Blending Italian ingredients, Romanian craftsmanship and genuine passion, every project comes to life as a piece of furniture designed for comfort, durability and timeless style.

All our products are made to order, allowing each customer to choose the model, dimensions, upholstery, accessories and finishes that best suit their needs.

DESPRE NOI

De peste 10 ani creștem alături de clienții noștri, iar fiecare experiență ne-a ajutat să devenim mai buni.

După ani dedicați sistemelor de dormit, somierelor, saltelelor, sistemelor de rabatare, mecanismelor de extensie și accesoriilor produse de partenerii noștri din Italia, am creat colecția Arduino Home.

Îmbinând ingrediente italiene, măiestrie românească și multă pasiune, fiecare proiect prinde viață într-o piesă de mobilier creată pentru confort, durabilitate și un design mereu actual.

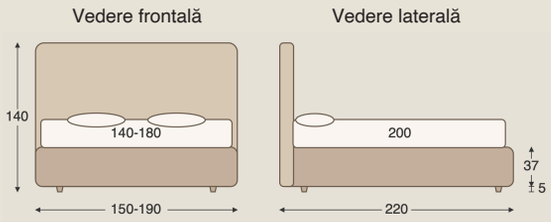

Toate produsele sunt realizate la comandă, astfel încât fiecare client își poate alege modelul, dimensiunile, tapițeria, accesoriile și finisajele dorite.
